

# SGA 30

Probe Adapter

## Short description

The SGA 30 probe adapter is used to position the conducted probes at 30° in order to tilt the probes for measurements. Magnets, that allow for adhesion and fixation on the GND 25 ground plane, are embedded into the bottom of the probe head holder.

## Technical parameters

|                   |                    |
|-------------------|--------------------|
|                   | 30°                |
| Weight            | 450 g              |
| Sizes (L x W x H) | (112 x 46 x 44) mm |

## Application
